Coverage

- Although earnings estimates relate to the full twelve months of the financial year, employment estimates relate to the last pay period ending in June of the given year. Given these differences, the ABS does not recommend using these components together to calculate average earnings. This is particularly true during the 2019-20 and 2020-21 financial years, given the extent of short-term changes in the labour market during the pandemic.
- Estimates in this release may differ from other available information due to differences in coverage and/or the classification of organisations. For further details, refer to the [Comparability of results \(/methodologies/employment-and-earnings-public-sector-australia-methodology/2020-21#comparability-of-results\)](/methodologies/employment-and-earnings-public-sector-australia-methodology/2020-21#comparability-of-results) section of the Methodology.

Revisions

Previously published estimates for 2019-20 have been revised as a result of new

information received from organisations. The extent of revisions may differ between data items, states/territories, level of government and industries. These revisions are reflected in the Employees, States and territories and Industry tables, and the associated time series spreadsheet.

Inquiries

For inquiries about these and related statistics, contact the Customer Assistance Service via the ABS website [Contact Us \(https://www.abs.gov.au/about/contact-us\)](https://www.abs.gov.au/about/contact-us) page. The [ABS Privacy Policy \(https://www.abs.gov.au/websitedbs/D3310114.nsf/Home/Privacy?opendocument#from-banner=GB\)](https://www.abs.gov.au/websitedbs/D3310114.nsf/Home/Privacy?opendocument#from-banner=GB) outlines how the ABS will handle any personal information that you provide to us.

Data downloads

In line with updating to more recent technology formats, ABS will be progressively transitioning to Excel files in .XLSX format from 3 December 2021. This means the timeseries spreadsheets in Employment and Earnings, Public Sector, Australia, will be upgraded from the current .XLS to now be released in .XLSX. While this change will improve usability, it may also require changes to automated macros or similar programs that users may have in place that call on the current file extension format.

This change will take effect from the 2021-22 financial year issue of Employment and Earnings, Public Sector, Australia, to be released in November 2022. The file format for previously released data will not change.
